

Elkhart

# 100CR Student Cornet

Elkhart by Conn Selmer Europe 100CR Student Cornet - .459" bore, 1st slide thumb hook, stainless-steel pistons, Bb, in a clear lacquer finish with a backpack-style case.

## Features

The 100CR is highly popular in the education sector as it is ideal for beginner students, schools, and music education services.

Its robust construction and materials make it a simple but effective entry into brass playing. Built in the British Brass Band style, the Elkhart 100CR is a great alternative for those students who would find a trumpet too large and physically demanding. The Elkhart 100CR has a yellow brass body, a rose brass leadpipe, and is finished in a clear lacquer.
