# 100SSU Student Soprano Saxophone

Elkhart by Conn Selmer Europe 100SSU Student Soprano Saxophone - curved one-piece body, Bb, high F#, in a clear lacquer finish with a backpack-style case.

## Features

The Elkhart 100SSU is a great quality student to intermediate soprano saxophone perfect for the budget-conscious beginner, or the more experienced player wishing to pick up a second instrument. It differs from most other Soprano Saxophones as it has a curved neck, reducing hand strain while providing a comfortable play. The 100SSU is finished in a beautiful clear lacquer and is the most widely used and commonly played alloy in the world. Unlike other saxophones in this price range, the 100SSU has features often only found on premium saxophones. Its underslung octave mechanism is considered to have a much quicker and more responsive action compared to over-slung mechanisms, making it the benchmark for entry-level saxophones.
