

Elkhart

# 100TBA Student Alto Trombone

Elkhart by Conn Selmer Europe 100TBA Student Alto Trombone - Eb, 6.5" bell, yellow brass in a clear lacquer finish with a backpack-style case.

## Features

The build quality and price of the 100TBA make it a popular trombone with schools, music education services, and brass bands as it has been designed to suit entry-level and intermediate players specifically due to its scale. For example, it is lightweight, and for those with shorter arms, who would possibly struggle with a tenor trombone would find this a comfortable instrument to learn with. Equally, its price is appealing to the occasional alto trombone player as a great second instrument. It is crafted from traditional yellow brass, in a clear lacquer finish, it features a 6.5" bell which affords for excellent projection due to the correct amount of air resistance for the player's ability.

Moreover, its slide has been carefully lapped to ensure smooth action and is made from durable cupronickel. This reliable hard alloy resists corrosion and will prolong the instrument's life even further. The 100TBA's intonation is accurate, allowing students to concentrate on mastering their technique and developing their musicality ensuring an enjoyable experience.
