

Elkhart

# 100TBC Children's Trombone (Bb/C)

Elkhart by Conn Selmer Europe 100TBC Student Trombone - Bb & C, 8" bell, dual-bore, yellow brass in a clear lacquer finish with a backpack-style case.

## Features

The build quality and price of the 100TBC make it a popular trombone with schools, music education services, and brass bands because it has been designed to suit entry-level players specifically. Crafted from traditional yellow brass, in a clear lacquer finish, it features an 8" Bell which affords for excellent projection due to the correct amount of air resistance for the player's ability. What is more, as a dual-bore trombone it has a smaller slide on one side and graduates to a larger diameter on the other. Giving the player more initial resistance from the narrower bore, opening up for a bigger sound. Student level trombones will seldom if ever, have a dual-bore. Such trombones are normally found in certain large bore and bass trombones, this feature is of value to more advanced musicians.
