

Elkhart

100TR Student Trumpet

Elkhart by Conn Selmer Europe 100TR Student Trumpet - Bb, ML bore, mouthpiece, first slide thumb saddle, third slide tuning ring, 2 waterkeys, in a clear lacquer finish with a backpack-style case.

Features

The Elkhart 100TR is a must-have for beginner students, schools and music education services. This fantastic entry-level trumpet has been designed to accommodate younger students. And due to its first slide saddle and third slide tuning ring, beginner students can start learning the basics of tuning. These smooth slides are perfect for making minor adjustments to help tune with other members of your band or orchestra.

Built for longevity and performance, it features a rose brass leadpipe, which produces a balanced and smooth tone. Rose brass is normally reserved for premium, high-end instruments and not commonly found on beginner player trumpets. Also featured is a medium-large bore which offers versatility with little resistance.

Furthermore, to ensure that the 100TR offers a comfortable hold for the younger player. It is highly rated and not only sounds great but is excellent value for money with students growing-up with the trumpet.
