

# Bach®

NEW

## A47XPS Professional Trombone

### WHAT it is

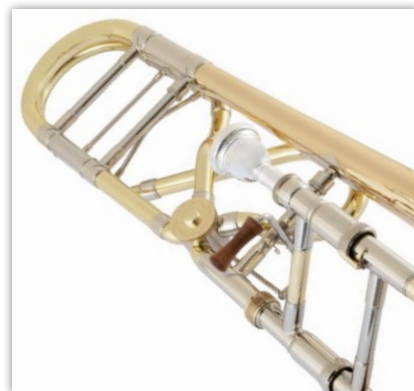

- The A47XPS is the newest member of the Bach Artisan line of trombones.
- Developed with international trombone Bach artist Peter Steiner, it achieves balanced resistance and improved airflow throughout the new X wrap valve section.
- This model includes three interchangeable brass leadpipes, offering players more options to fit their individual needs.

### WHO it's for

The ease of play, combined with the signature Bach sound, makes this model well-suited for advanced high school players, college students, symphony musicians, and solo artists. The A47XPS represents a significant step forward in the development of Bach professional trombones.

### WHY it's great

- Modular design
- .547" large bore
- 8½" one-piece hand-hammered detachable yellow brass 47 bell
- Detachable bell flare for compact storage and ease of travel
- Soldered bell bead with flat wire
- Reverse construction, yellow brass main tuning slide
- Newly designed Artisan X Wrap valve section
- Standard Artisan Rotor with improved action and shorter throw
- New contoured wooden thumb paddle
- Yellow brass outer slide with threaded leadpipes
- Comes with three interchangeable brass leadpipes: 47, 42, 420 (open)
- Deluxe engraving
- Lightweight, backpack-style case
