

LPC311E Student Piccolo

With a history dating back to 1750, Leblanc has built a reputation for manufacturing some of the finest musical instruments in the world. Blending heritage with innovation, Leblanc continues to advance the art of flute manufacturing.

Features

The LPC311E features a premium student hand-cut Grenadite™ headjoint with silver-plated keys hand-assembled on a Resonite™ body. Designed for effortless playability, it offers unmatched acoustic response, rich tonal depth, and a broad dynamic range.

The hand-cut Grenadite™ headjoint, a proprietary blend of six materials primarily Grenadilla wood, delivers richer, warmer, and more flexible tone than standard ABS resin. It supports easy first tones and expressive, even response across all registers. The conical bore and engineered tone-hole design provide precise intonation and resonant projection, with durability against temperature and humidity changes.

Drawing on features from intermediate and professional models, the 311 series uses German steel wire springs for feather-light, fluid, and responsive key action. It includes a split E mechanism for stable third-register E and long-lasting Pisoni pads for consistent seating and tone production. Every LPC311E is fully play-tested and arrives ready to perform.

- Rich, resonant, projecting tone
- Carefully balanced key action
- Comfortable ergonomics
- Precise intonation

Specifications

- Premium student hand-cut headjoint made of Grenadite™ (proprietary composite)
- Resonite™ body
- Conical bore
- Silver-plated keys
- Split E mechanism
- Pisoni pads
- French-style case with cover
