

LPC411E Intermediate Piccolo

With a history dating back to 1750, Leblanc has built a reputation for manufacturing some of the finest musical instruments in the world. Blending heritage with innovation, Leblanc continues to advance the art of flute manufacturing.

Features

The LPC411E is crafted for advancing flutists, featuring a hand-cut Grenadite™ headjoint and body with silver-plated keys hand-assembled to professional-level specifications. It delivers rich tonal depth, exceptional intonation, and reliable playability across a wide dynamic range.

Its all-Grenadite™ construction, a proprietary blend primarily of Grenadilla wood, offers the warmth and tonal complexity of natural wood with added strength and stability in varying climates. The headjoint responds effortlessly with warm, even tone across all registers. The conical bore and engineered tone-hole system ensure resonance and precise tuning.

Inspired by professional models, the LPC411E features silver-plated keywork hand-adjusted with German steel wire springs for fast, light, and fluid action. Pisoni pads provide reliable, long-lasting tonal consistency. Each flute is fully play-tested and arrives ready to perform.

- Rich, resonant, projecting tone
- Easy articulation
- Carefully balanced key action
- Comfortable ergonomics
- Precise intonation
