

## Studio Series

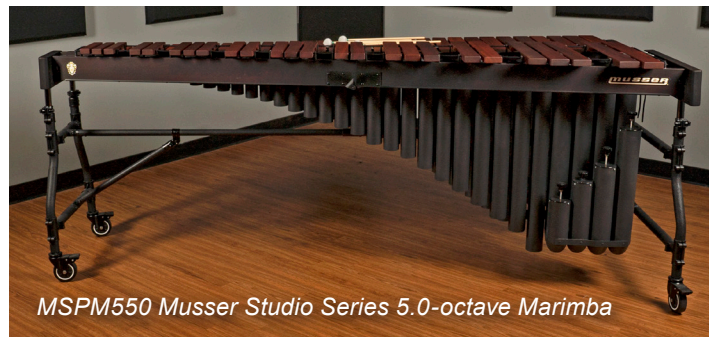

Discover the Musser Studio Series - top-quality keyboard instruments that combine professional-level features with budget-friendly prices. Crafted from premium African padauk wood, these marimbas and xylophones produce an exceptional tone and deliver a rich, resonant sound. With height-adjustable frames, you can ensure optimal playing technique and comfort, reducing the risk of strain or injury. Experience the joy of playing professional-level instruments at economical prices by contacting your favorite authorized Ludwig-Musser dealer today!

### MSPM550 & MSPM543

Looking for a high-quality marimba that can take your musical performance to the next level? Check out the Musser Studio Series padauk marimbas, which are designed to offer pro-level features to musicians of all skill levels. The padauk bars are meticulously tuned and come in graduated widths, allowing for excellent sound quality across the full range of the instruments. The 5.0-octave model also has tunable resonators in the lowest half-octave, providing greater control over the instrument's lowest register and exceptional tone in all environments. The frames are sleek and durable, with a pneumatic-assisted height adjustment system that is quick and easy to use. This is a truly exceptional instrument that is perfect for professional musicians and aspiring performers alike. Visit our website or contact your authorized Ludwig-Musser dealer to learn more and take your music to new heights.

### MSPX535

Unlock your potential with Musser Studio Series 3.5-octave Padauk Xylophone! This professional-level instrument is now affordable. Uniform-width African padauk bars deliver unmatched projection and clarity throughout the full range. The durable, height-adjustable frame ensures stability and comfort. Elevate your playing experience today. Visit our website or contact an authorized dealer.
